Re: Name Change

Dear Gentlemen:

Please find official documentation of legal (and fully authorized) name change from James B. Hellwig to "Warrior". Please notice this is simply, "Warrior", not Warrior Hellwig or James Warrior. In this day and age of technology, it is sometimes difficult or rather confusing as to how to enter just one name on your computer system files. My suggestion from my experience is to use, "Mr.", simply enter "Mr. Warrior".

After nearly four years of dealing with a barrage of difficult "attitude(s)" on my changing of name, the fact is still the same, my complete legal name is "Warrior". I would appreciate that you officially recognize it upon your system, as has been done by others, to avoid further confusion. Thank you for your excellent cooperation.
